

samaritan® PAD 360P

Fully Automatic Public Access Defibrillator

Compact, Easy-to-Use, Lifesaving Technology

Sudden Cardiac Arrest (SCA) is a leading cause of death globally. As response time is critical for survival, the use of an AED can increase the survival rate from 5% to up to 70%, if used within the first few minutes of the SCA.

The samaritan® PAD family of public access defibrillators is designed especially for use in public areas by providing a sophisticated defibrillator for adult or pediatric use, inside a lightweight and easy-to-operate system. Offering all the key features of the samaritan PAD products, the samaritan PAD 360P is a fully automatic defibrillator designed to analyse heart rhythm and automatically deliver a life-saving electrical shock (if needed). The SAM 360P also includes a motion detection feature to warn users of excessive or unexpected patient movement.

Compact in Size, Long on Ability

Portable and lightweight. The samaritan PAD 360P is lighter (1.1 kg/2.4 lbs) and smaller than other defibrillators.

Durable. The samaritan PAD 360P resists shock and vibration and carries an IP56 Rating, the industry's highest rating against dust and water ingress. It also carries a ten year unit warranty.

Advanced technology. The samaritan PAD 360P utilizes proprietary electrode technology, advanced and stable firmware, and proprietary SCOPE™ Biphasic technology (an escalating and low-energy waveform that automatically adjusts for patient impedance differences) to assess rhythm and defibrillate if necessary.

Advanced technology balanced against the demands of real world use. At HeartSine®, our innovation changes lives. And saves lives.

* Self-Compensating Output Pulse Envelope (SCOPE™) technology automatically compensates energy, slope and pulse envelope for the patient.

Easy-to-Follow Visual and Verbal Guides

User-friendly. The samaritan PAD 360P features easy-to-understand visual and voice prompts that guide a user through the process including CPR coaching.

One-button operation. The samaritan PAD 360P only has one button – ON/OFF, ensuring straightforward operation for all levels of rescuer.

Automatic Shock Delivery. After analysing heart rhythm, the samaritan PAD 360P will automatically deliver a shock (if needed), eliminating the need for the rescuer to push a shock button.

Always ready. A System Status Ready Indicator flashes to show that the complete system is operational and ready for use. The device automatically runs a self-check each week.

Visual cues prompt pad placement

Stand clear of the patient

Safe to touch the patient

Real Economy for the Real World

Two parts, one expiration date. Pad-Pak™ cartridge combines battery and electrode pads, with one expiration date to monitor.

Low cost of ownership. With a shelf life of four years from date of manufacture, the Pad-Pak offers significant savings over other defibrillators that require separate battery and pad units.

Pad-Pak and Pediatric-Pak with pre-attached electrodes.

The HeartSine PAD's built-in intelligence and unique pediatric Pad-Pak ensure the appropriate energy level is delivered for children.
